The Shape that Fits the Future

Ultra Compact. Ultra Impact

No more compromising between performance, profile, and price.

A revolution in ultra-compact device design, Leeno NUC fully scalable, computing solution in the smallest possible size, complete with the Intel Core family processors.

This new generation computing device provides a flexible, customizable engine to drive digital signage, kiosks, home theatre and intelligent computing for small spaces, or anywhere else you can imagine.

Leeno NUC also has dual (triple) display capabilities for multiple monitoring and display.

With that kind of power and size, you'll rethink what's possible.
